Dear Mr. King,

Re: Reclamation Surety and Plan Response Deadline, Cricket Quarry, Continental Lime, Inc. M/027/006, Millard County, Utah

On November 20, 1990, the Division received a copy of a replacement reclamation surety bond (No. _____), for \$179,000. The bond is written by the AETNA Casualty and Surety Company.

Enclosed, please find the \$179,000 bond (No. _____), submitted to us June 29, 1990. The bond was submitted on an older form, which we requested the operator update. This bond covered the unamended portion of the Cricket Quarry site, and is replaced by the new \$179,000 bond, which covers all current expansions and amendments to the operation and is calculated in 1999 dollars.

Thank you for your cooperation in completing this part of the permitting action. However, the Division is still unable to proceed with final approval of the Cricket Quarry permit. The review process has not been completed for the proposed Mining and Reclamation Plan. We await formal response addressing Division review comments dated August 4, 1989 (see enclosed copy).

The form and amount of surety, which you have submitted will still need to be approved by our Board of Oil, Gas and Mining. We are unable to seek their approval until the Mining and Reclamation Plan has been approved by our staff. A January 7, 1991 deadline has been established for addressing the Division's August 1989 comments. The Division will also seek the BLM's concurrence regarding the reclamation bond adequacy. The BLM now requires mandatory bonding for all sites over 5 acres.

Please contact me or Holland Shepherd if you have further questions.

Sincerely,

A handwritten signature in black ink, appearing to read "D. Wayne Hedberg". The signature is fluid and cursive, with the first name "D." and last name "Hedberg" clearly distinguishable.

D. Wayne Hedberg
Permit Supervisor
